

Pétanque Business Specialists offers Project Management services that subscribes to practices and ethics of the Project Management Institute (PMI) and Prince2. By customising our Project Management approach according to the size, complexity and risk of the project, we provide best value for money, not compromising quality.

On-time, in-scope and budget-driven Project Management is what **our team of professional project managers** deliver to clients who engage in Information Technology and Business Process Projects. We combine experience with innovation and focused drive, managing resources to deliver as planned. Project Managers lead their projects with **energy, focus** and **exceptional resource management**. We follow a practical approach to integrating Project Management with Systems or Product Development Lifecycle Management.

The Project Offer

- Management of business transformation through project management disciplines;
- A customisable methodology to fit the project complexity;
- End-to-end solutions: from idea to reality, from strategy to realising the long term benefits;
